The Standard for Quality, Innovation, Service and Support Since 1955

Our patented liner design for a Detroit Diesel Series 60 in conjunction with our 6 years of steel piston experience leads to the release of the IPD Detroit Diesel 60 Series program that is our Featured Product in this issue. Please stay tuned to future newsletters for continued product expansions that utilize IPD innovations!

As always, we value and look forward to your continued support of IPD's aggressive product development programs.

We thank you for your business and welcome your comments at sales@ipdparts.com.

IPD Featured Product:

ANNOUNCING IPD PRODUCTS FOR DETROIT DIESEL SERIES 60 12.7L ENGINES!

For over 6 years, IPDSteel® products have been saving engine owners significant money on Caterpillar® engines. Now we can offer this same value for owners of Detroit Diesel® 60 Series engines.

Unique to this application is the IPD patented cylinder liner for Detroit Diesel® 60 Series engines requiring upper cylinder liner cooling. IPD was successfully granted this patent based not only on the simplicity of design and manufacture but the ability of the design to maintain the upper cylinder liner cooling while retaining the critical flange strength required by today's high powered diesel applications where others may fall short.

The applications that IPD will offer include 12.7L engines that utilize the Steel Crown / Aluminum skirt pistons referenced on the attached IPD Detroit Diesel® 60 Series quick reference guide attached for your convenience.

For more information, please contact your IPD Customer Service Representative or your IPD Regional Manager.

IPD Differentiation:

IPDSteel! PATENTED PISTON TECHNOLOGY HAS BEEN AN AFTERMARKET LEADER FOR OVER 6 YEARS! Causing others to hastily try to catch up!

Please click here for our IPDDB-0008 IPD piston range guide

Why do we use the word hastily above? Because steel piston technology is not something as simple as reverse engineering the OEM piston and putting it in a box!

IPD spent the better part of a decade engineering and designing our IPDSteel® product line. The first release to the market with IPDSteel® pistons was over 6 years ago and many thousands are running in 3116 through 3500 series applications!

DON'T RISK YOUR CRITICAL APPLICATIONS WITH SUPPLIERS THAT DO NOT HAVE THIS TECHNOLOGY AND EXPERIENCE!

SPECIFY ONLY IPDSteel® PROVEN AND TESTED CYLINDER COMPONENTS!

You can also contact your IPD Customer Service Center, Regional Manager or go to www.ipdparts.com for more information on these as well as other IPD products.

IPD New Products: IPD PRODUCT LINES FOR LATER ENGINES CONTINUES TO INCREASE IN COVERAGE:

As we continue to invest in future product lines such as the engines listed below, many of the products we have developed for C12, C15, etc also may fit other applications such as:

- ◆ 3176 ◆ 3176C ◆ C10 ◆ C13 ◆ C18 ◆ C32
- ◆ 3176B ◆ C9 ◆ C11 ◆ C16 ◆ C27

Products that you might typically find common among these applications are gaskets, valve train parts and bearings. Ultimately IPD will be looking at complete coverage in cylinder kit components on most of these applications where they make market sense.

Please follow this link for the complete listing of IPD's Products for these engines that you may be walking away from sales on today!

IPD New Products:

COMPLETE LISTING OF ALL NEW IPD PRODUCTS ADDED SINCE LAST ISSUE:

87 new items added to our product line at IPD since last issue. See attached list for more details.

New items include:

- ◆ C15 & C18: Connecting rod bearing part number 2243246 for "4-bolt connecting rod"
- ◆ DD60 series: Almost 50 part numbers in our initial offering! See featured product above.
- ◆ C12: .50mm connecting rod bearing 1280395
- ◆ C12: New Turbocharger part number 1906210
- ◆ 3500 series: Many new gasket sets listed.

Please follow this link for the complete listing of [IPD's New Products release](#).

TECH BULLETIN

IPD Technical Bulletin:IPDTB-0020

GENERAL INFORMATION ON DETROIT DIESEL 60 SERIES ENGINES.

As IPD develops products for newer engines it is important to make certain we all are using the same information! Every engine manufacturer has different ways of identifying their engines as noted on the attached. If you are not familiar with the 4 variations of this popular model engine please see the attached IPD Technical Bulletin for further information. [Click here to view IPDTB-0020](#)

Please note that IPD Distributors can access our exclusive IPD Technical Support line by going to www.ipdparts.com and entering the IPDNet™, then clicking on IPD Technical Support.

IPD Marketing:

IPD TO DISPLAY AT TWO TRADE SHOWS IN OCTOBER AND NOVEMBER!

Big R Show: Riviera Hotel, Las Vegas Nevada USA October 31-November 2

We have written in previous issues about efforts of the HDRG (Heavy Duty Remanufacturing Group) including a first ever "Heavy Duty Engine Section" at its upcoming Big R Trade show at the Riviera Hotel in Las Vegas.

Attached is a [special coupon offering free admission for all Heavy Duty Engine Rebuilders](#).

Click here for [a recent flyer put out by HDRG with a schedule of events that include a table discussion on Heavy Duty Failure Analysis](#) that IPD's Director of Product Development and Technical Support, Steve Scott will participate in.

More information on the Big R event can be found at www.bigrshow.com

IDA (Independent Distributors Association) annual convention: Orlando Florida USA October 28-November.

IPD will also be exhibiting at this event, booth number 418. IDA is an organization of parts and service suppliers to the heavy equipment industry. More information can be found at www.idaparts.org.

Thank you for taking the time to review this material. We hope that you found it informative. If you have any comments, please email us at sales@ipdparts.com
