## *The Standard of Quality, Innovation, Service and Support Since 1955*

Over the past several years IPD has concentrated on supplying quality repair parts for Caterpillar® engines. We have invested heavily in our patent pending IPDSteel™ piston technology, and focused our product development efforts on being first to market with alternatives to the OEM for the latest Caterpillar® engines. The success of our IPDSteel™ pistons also presents opportunities for us to expand into other "brand" OEM engines. For example in 2009 we released our IPD engine kits for Detroit Diesel® Series 60 engines.

This month we are announcing another product line expansion with the release of our IPD Products for Cummins® ISX / QSX engines. Again, we have built our new program around the proven IPDSteel™ piston technology. Included in our newsletter this month is a quick reference guide and product bulletin on the our ISX / QSX program , as well as an IPD Technical Bulletin to help you better understand the various and sometimes major updates in pistons and liners for these engines.

Please let us know how we can help you promote this product line in your market or utilize IPD parts in your engine program.

We thank you for your business and welcome your comments at [sales@ipdparts.com](mailto:sales@ipdparts.com).

## **IPD Feature Product:**

### ANNOUNCING IPD PRODUCTS FOR CUMMINS® ISX / QSX DIESEL ENGINES

As mentioned above, the continual development of the IPDSteel® product line makes it possible for IPD to provide you with this wonderful opportunity at a cost savings, without risk to engine life or performance.

IPDSteel™ pistons have proven themselves since 2003 in thousands of applications worldwide and now are available for these popular on and off highway engines. The IPD product line for Cummins® ISX / QSX engines consists of the following components at this time:

IPD "In-Frame" engine overhaul kits: These pre-packaged kits include cylinder kits, rod and main bearings and a complete IPD Style 1-2-3™ In- Frame Gasket Kit for added convenience.

Complete cylinder kits (PLG Kits) are also available which include the piston, liner, rings, pins and retainers.

- Rod and main bearings and camshaft bushings
- IPD Style™1-2-3 In- Frame Gasket Kits
- Valve train parts and injector tubes

Attached you will find the new IPD PB-09 Product Bulletin that outlines many of the features of our entire Cummins® ISX / QSX program, including a quick reference guide of the major components we offer. (LINK TO IPDPB-09)

For your requirements please contact your IPD Regional Manager, Customer Service location or email [sales@ipdparts.com](mailto:sales@ipdparts.com).
