

IPD Products for Caterpillar®  
3126 ENGINES

The Standard for Quality, Innovation, Service and Support Since 1955

# IPD PARTS...SAVINGS WITHOUT RISK

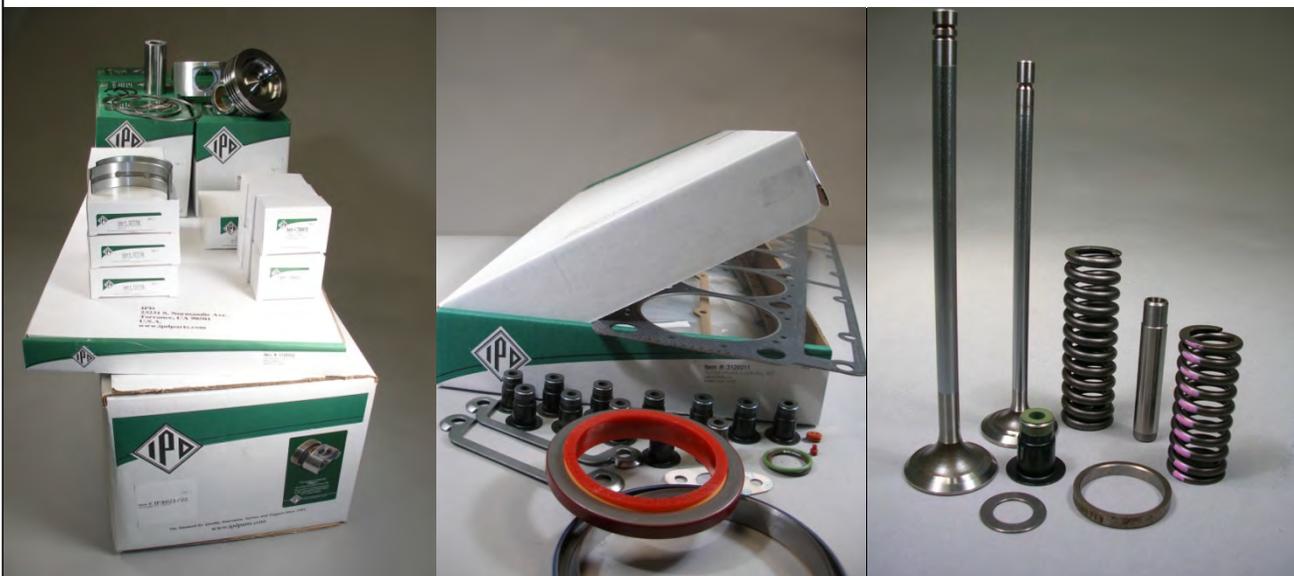

IPD offers comprehensive coverage of parts for this popular engine. A significant cost savings is possible due to the development of the **IPDSteel®** Articulated (Two-Piece) Steel Piston Crown series. IPD's coverage includes:

- In & Out of Frame Overhaul Kits with either aluminum one piece pistons, or **IPDSteel®** two-piece articulated steel pistons with aluminum skirts (application specific)
- Coverage of both 2 & 3 Valve Cylinder Head Components
- **IPDStyle 1-2-3™** or OEM Style Modular Type Gasket Sets
- Rod, Main and Thrust Bearings
- Connecting Rod and Camshaft Bushings
- Cylinder Bore Repair Sleeves

## ENGINE OVERHAUL KITS FOR POPULAR 3126 ENGINE APPLICATIONS

Available with both aluminum one piece pistons and the innovative Two Piece **IPDSteel®** Articulated Cast Steel crowns with aluminum skirts. These kits offer the major components you need for either IN or OUT of frame engine overhauls in one convenient and presentable box. IPD Overhaul kits include:

- Choice of above styles of pistons (application specific)
- IPD Quality Assurance checked rings includes latest in moly or plasma type ring coatings where required with proper sizes and angles for maximum life and oil control
- Piston Pins & Retainers
- Rod, Main and Thrust bearings. (specify size)
- Either **IPDStyle 1-2-3™** In or Out of Frame Overhaul Gasket Set
- Conveniently packaged in high quality IPD packaging
- IPD Overhaul Kits provide all the parts needed in one easy to ship box!
