

IPD OFFERS A COMPLETE LINEUP OF QUALITY WATER PUMPS

These water pumps are engineered, manufactured, and tested by IPD.

When it comes to quality, IPD Customers understand the difference. IPD's in-house engineering team has spent years developing our own line of water pumps that we are proud to stand behind. These pumps use the most current components that provide best-in-industry quality you can rely on.

IPD is the Leader in Quality

IPD's in-house engineering team used the most advanced three-dimensional scanning and coordinate measurement machine (CMM) technologies to create these precision pumps. We insisted on only new and the highest quality materials and components including:

- Precision machined, cast iron housings and impellers
- Corrosion-resistant stainless-steel shafts and bronze thrust washers
- Ceramic, spring loaded seal assembly for the tightest seal
- Teflon lip-type hydrodynamic oil seals

WITH OVER 65 YEARS IN THE ENGINE BUSINESS, IPD KNOWS ENGINE PARTS

What also sets IPD water pumps apart from our competitors is IPD's new innovative and revolutionary packaging that ensures every pump arrives in perfect condition!

- Recyclable, plastic IPD-branded caps protect the bearings during shipping and minimize debris inside pumps
- Rigid, custom-fit foam inserts provide total protection and keep the pump snug versus typical water pumps that arrive in shredded cardboard
- Custom banding around the box means the packaging looks better and last longer
- Each pump includes a seal kit to help with installation

Strong banding around each box means your pump arrives in perfect condition

Protective cone and cap keeps debris out

Custom foam inserts cushion pump for ultimate protection

The signed tag proves every pump is personally inspected for leakage, pressure and flow

IPD NOW OFFERS REPAIR KITS FOR OUR WATER PUMPS

Buy new or rebuild – now you can purchase the water pump parts you need to rebuild your IPD water pump and make it function just like it's brand new. The following IPD manufactured water pumps and repair kits are available. Every repair kit comes in innovative IPD packaging that keeps it free from dings, damage and dirt with the parts carefully labeled. Inside you will find an impeller, shaft, seal assembly, non-threaded plug, steel retainer, tapered rolling bearing, filter and screw made from quality materials and designed to perform for demanding applications.

Each pump comes with a seal kit (gasket and o-rings) to help with your installation.
