

INTRODUCING VALVETRAIN COMPONENTS FOR CATERPILLAR C6.6 SERIES ENGINES

At IPD, we continue to drive excellence by expanding our product lineup. Building on our advanced engineering proven in the C9.3 and C6.4 series, we are proud to announce our new range of premium valvetrain components for the Caterpillar C6.6 series. Designed for demanding heavy duty applications, these components deliver the same level of precision, durability, and efficiency that our customers have come to expect.

ADVANCED VALVE TECHNOLOGY

EXHAUST AND INTAKE VALVES

Our nitrided diesel engine valves deliver exceptional strength and corrosion resistance, making them ideal for high-performance and heavy-duty applications.

COMPREHENSIVE VALVETRAIN SOLUTIONS

Our new offering for the C6.6 series doesn't stop at valves. We also provide:

- **Valve Guides:** Precision-machined to deliver smooth, reliable valve movement.
- **Valve Seats:** Crafted for a perfect seal, optimizing compression and combustion efficiency.
- **Valve Springs:** Engineered for consistent, dependable performance, maintaining optimal valve lift.
- **Valve Locks:** Secure and robust, ensuring proper valve retention even in the most challenging conditions.
